## Composer's Note for "Peachtree Street"

### "Peachtree Street" from *City Scape*

The final movement, "Peachtree Street," is a representation of all those roadways and main arteries that flow through cities (Peachtree Street is the main street that runs through downtown Atlanta, the city of my childhood). Every main street that runs through a city is loaded with the energy and bustle of commerce, reflecting the needs and wants of its citizens through businesses. Because there is so much diversity in city streets, I've created a movement that explores the diverse sections of the orchestra, their relationships, and their combination in creating a larger voice.

- Jennifer Higdon

### Jennifer Higdon Biography

Jennifer Higdon is one of America's most acclaimed and most frequently performed living composers. She has become a major figure in contemporary Classical music, receiving the 2010 Pulitzer Prize in Music for her *Violin Concerto*, a 2010 Grammy for her *Percussion Concerto* and a 2018 Grammy for her *Viola Concerto*. Higdon enjoys several hundred performances a year of her works, and *blue cathedral* is one of today's most performed contemporary orchestral works, with more than 500 performances worldwide. Her works have been recorded on more than sixty CDs. Higdon's first opera, *Cold Mountain*, won the International Opera Award for Best World Premiere and the opera recording was nominated for two Grammy awards. She now holds the Rock Chair in Composition at The Curtis Institute of Music in Philadelphia. Her music is published exclusively by Lawdon Press.
